POLISH CITIES IN NUMBERS

Total number: 954 cities

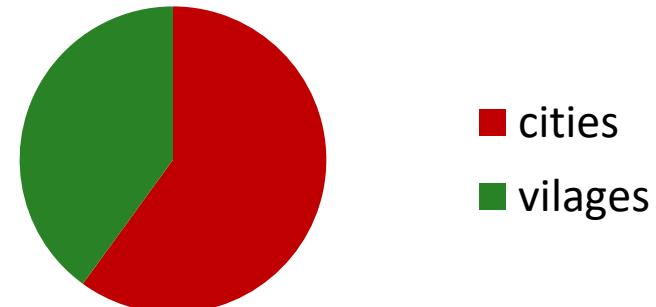

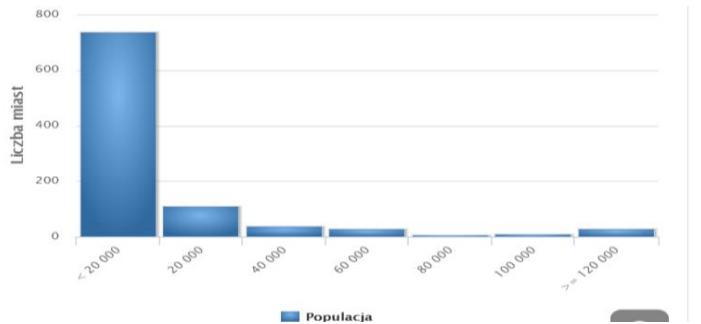

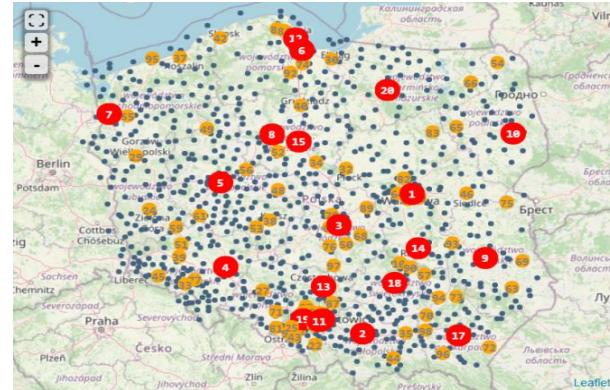

1 city with over 1 million inhabitants

4 cities with a population of 500 K to 999 999 inhabitants

33 cities with a population of 100 K to 499 K inhabitants

469 cities with a population of 20 K to 99 K inhabitants

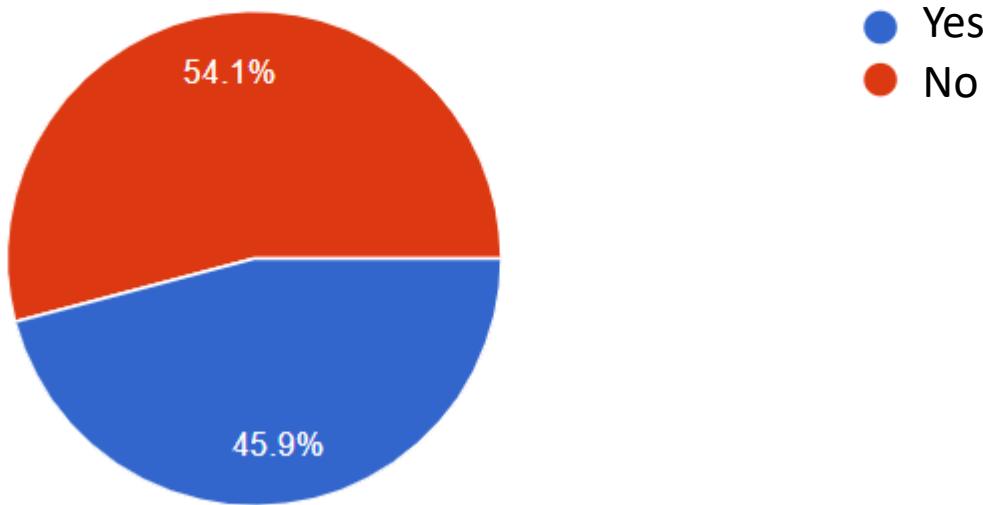

736 cities with a population not exceeding 20K inhabitants

based on data from the Central Statistical Office (GUS)

RESULTS OF A SURVEY CONDUCTED IN 2022 AMONG REPRESENTATIVES OF 244 POLISH CITIES

Are there activities in your city that support the development of green infrastructure?

Various types of green and blue infrastructure supported by municipalities in Poland

revitalization of urban greenery

increasing the area
of urban greenery

planting trees
and other plants

composting

green roofs and walls

greenery on the balcony

allotment gardens
&
community gardens

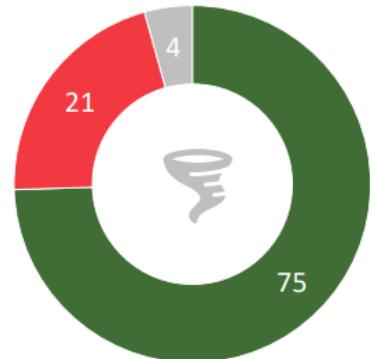

urban agriculture

rainwater retention

Do you think extreme weather events are more common now?

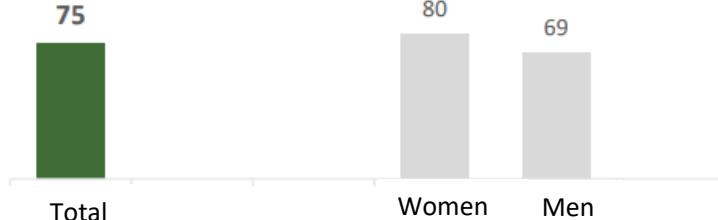

(single-choice question)

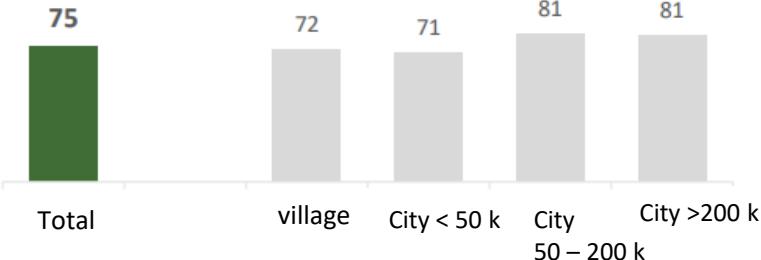

- Yes
- No
- Hard to say

Answer "Yes"

RESULTS BY GENDER

RESULTS BY SIZE OF LOCALITY

Odpowiadający: wszyscy badani, n=1004. Ze względu na płeć: kobieta: n=519, mężczyzna: n=485. Ze względu na wielkość miejscowości: wieś: n=311, miasto do 50 tys.: n=222, miasto powyżej 50 do 200 tys.: n=172, miasto powyżej 200 tys.: n=286.

GREEN ROOFS - NATIONWIDE FORMS OF SUPPORT

Moja woda (my water)

1 July 2020 - opening of the call for proposals

December 2020 - PSDZ petition

The diagram shows a cross-section of a building with a green roof. Rainwater is collected from the roof and directed into a underground water storage tank. The tank has a float valve and a pipe leading back up to the building's interior.

Budżet programu to 100 000 000 zł

Wsparcie do 5000 zł dla właścicieli budynków jednorodzinnych

Dotacje na instalacje do gromadzenia i retencjonowania wód opadowych i roztopowych

Wnioski należy składać do wojewódzkich funduszy ochrony środowiska i gospodarki wodnej (WFOŚiGW) przed zakończeniem przedsięwzięcia

Warunki dofinansowania:

- minimalny koszt kwalifikowany – **2000 zł**
- minimalna sumaryczna pojemność zbiornika/zbiorników – **2m³**
- maksymalny czas wypłaty dofinansowania – **do 12 miesięcy** od podjęcia decyzji przez WFOŚiGW

Korzyści z założenia zbiornika wodnego:

- dostępność wody w okresach suszy
- ograniczenie podtopień przy deszczach nawalnych
- źródło dobrej wody dla roślin
- zmniejszenie opłat za wodę i ścieki

Szczegóły naboru

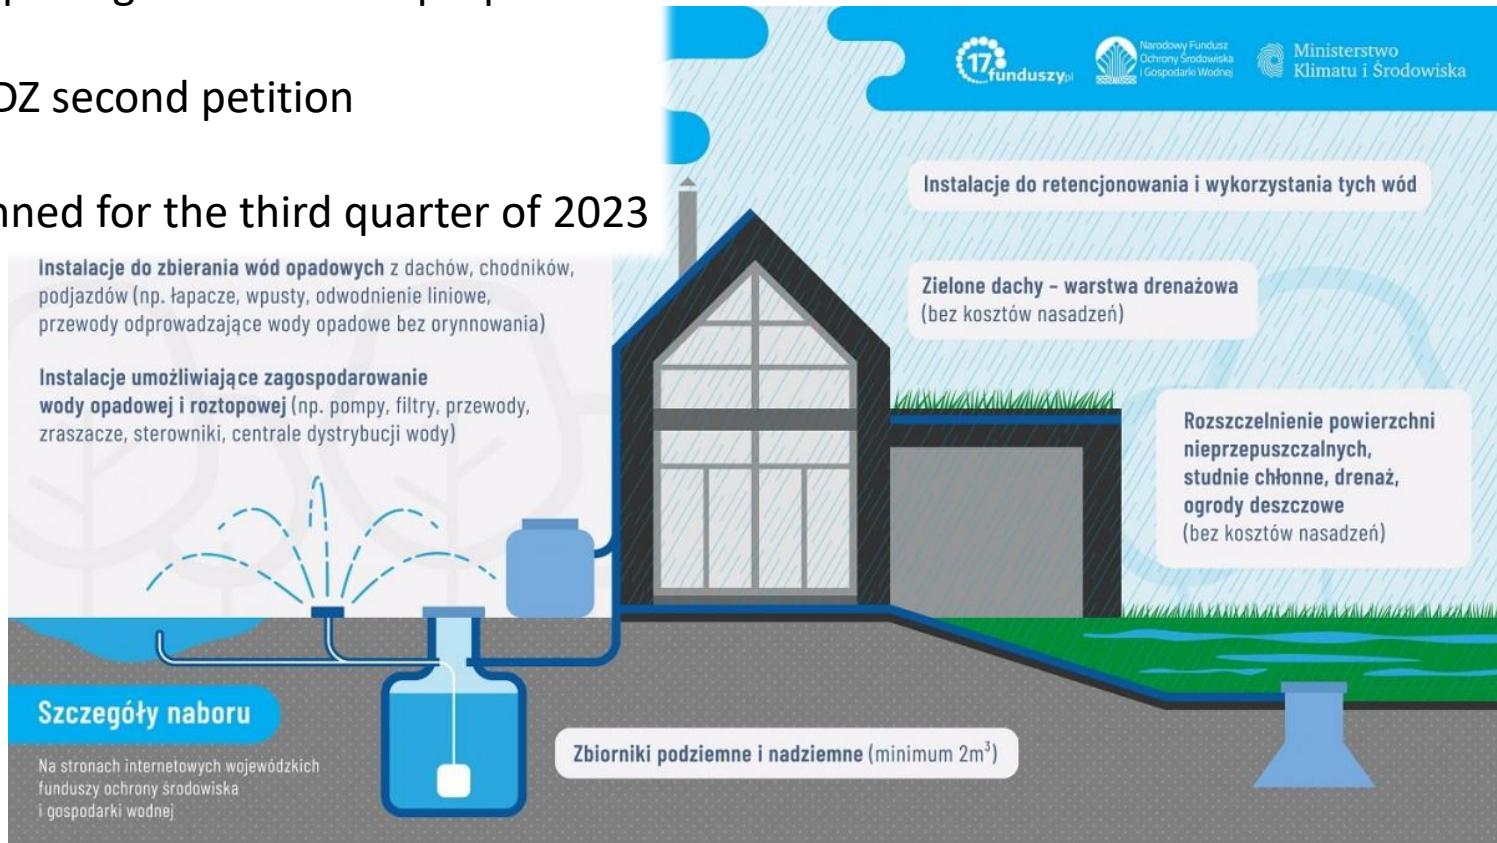

Na stronach internetowych wojewódzkich funduszy ochrony środowiska i gospodarki wodnej

Moja woda (my water) – second edition

22 March 2021 - opening of the call for proposals

January 2023 - PSDZ second petition

third edition - planned for the third quarter of 2023

Development of green infrastructure through support of allotment gardens (2022 – 2029)

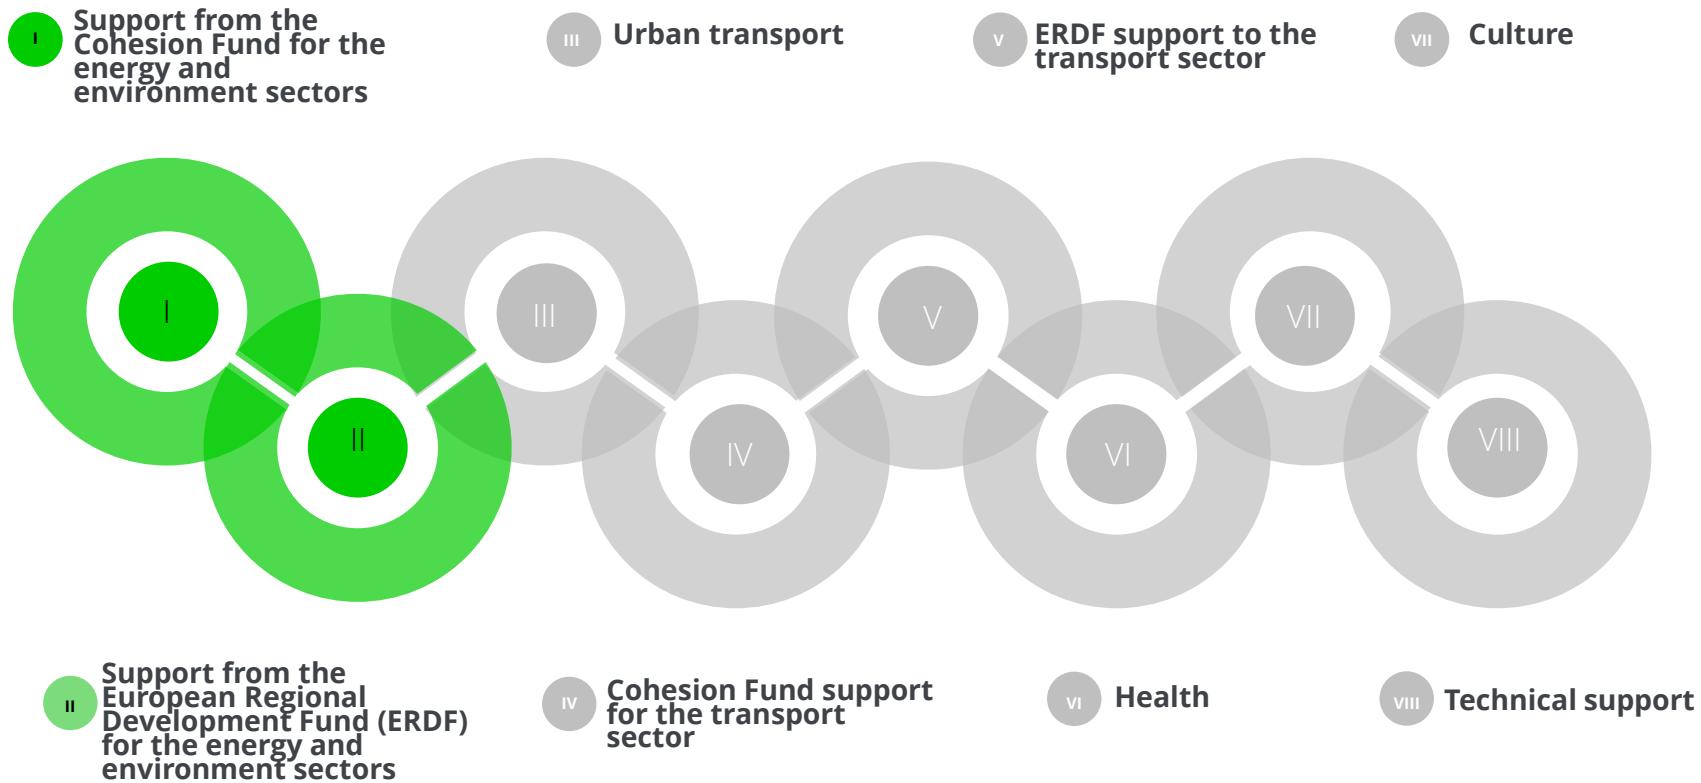

Projekt dofinansowany przez:

Rozwój zielonej infrastruktury poprzez wsparcie
ogrodów działkowych

FEnIKS: low-carbon economy, environmental protection, climate change mitigation and adaptation, transportation investments, health and cultural heritage protection

edition 2021:

- over 90 applications submitted
- funding for 19 applications
- all PSDZ applications accepted

GREEN ROOFS – ACTIVITIES AT THE LEVEL OF CITIES

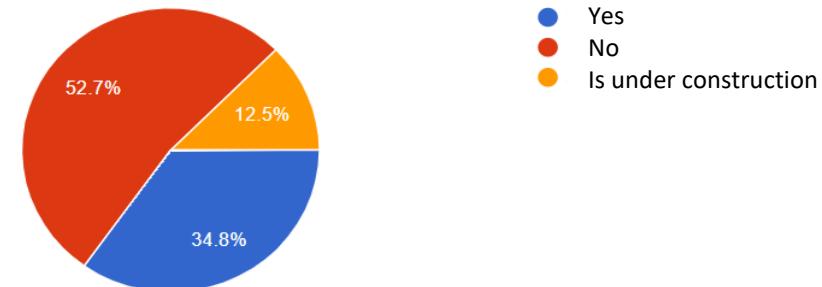

RESULTS OF A SURVEY CONDUCTED IN 2022 AMONG REPRESENTATIVES OF 244 POLISH CITIES

Are there activities in your city that support the development of green infrastructure?

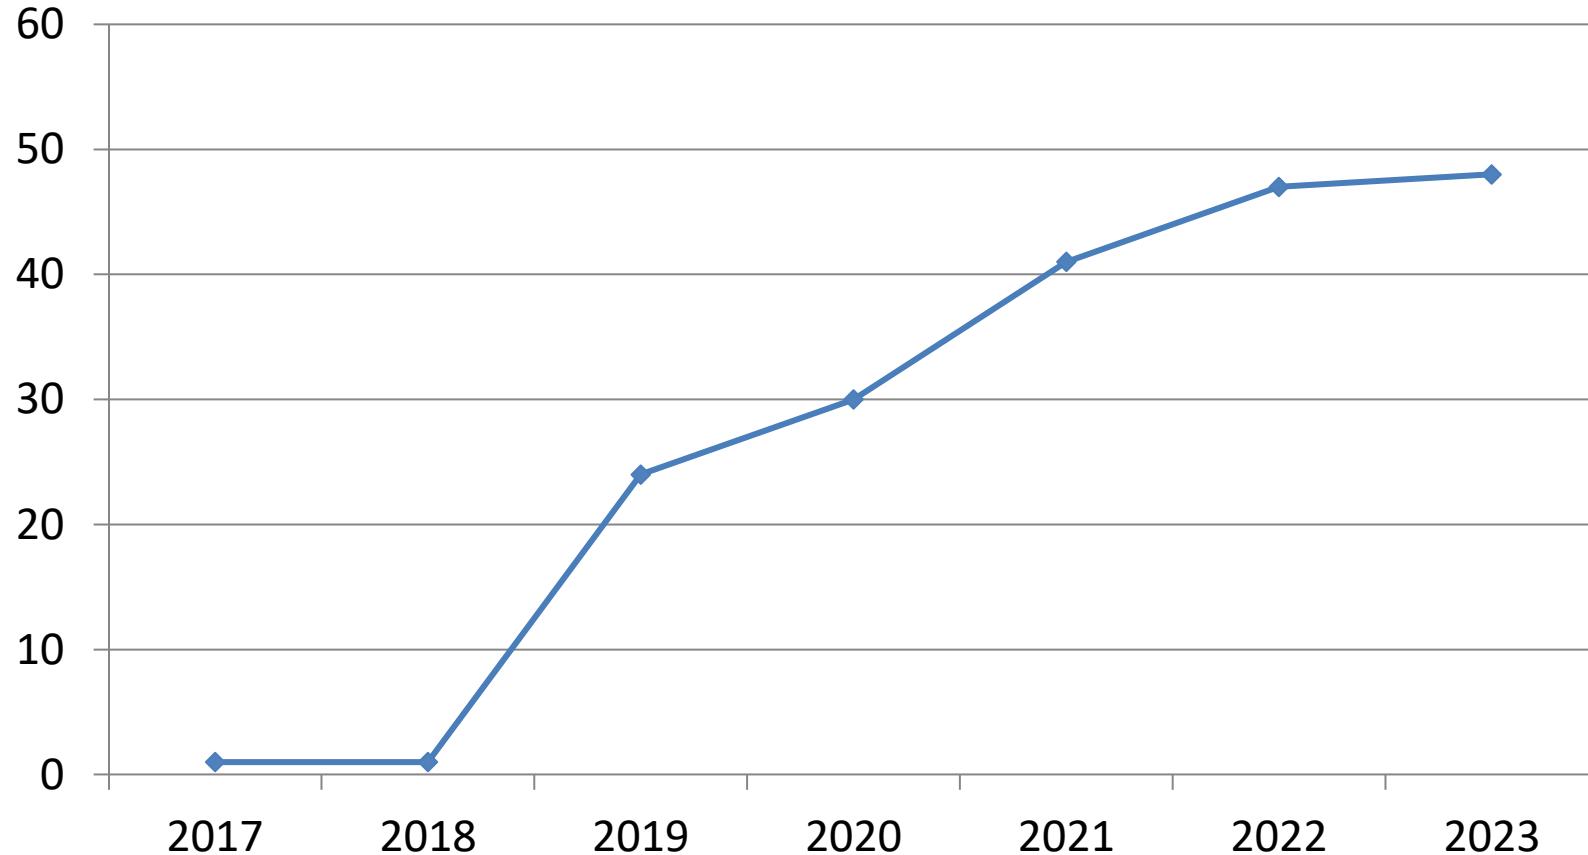

Does your city have a Municipal Climate Change Adaptation Plan?

112 responses

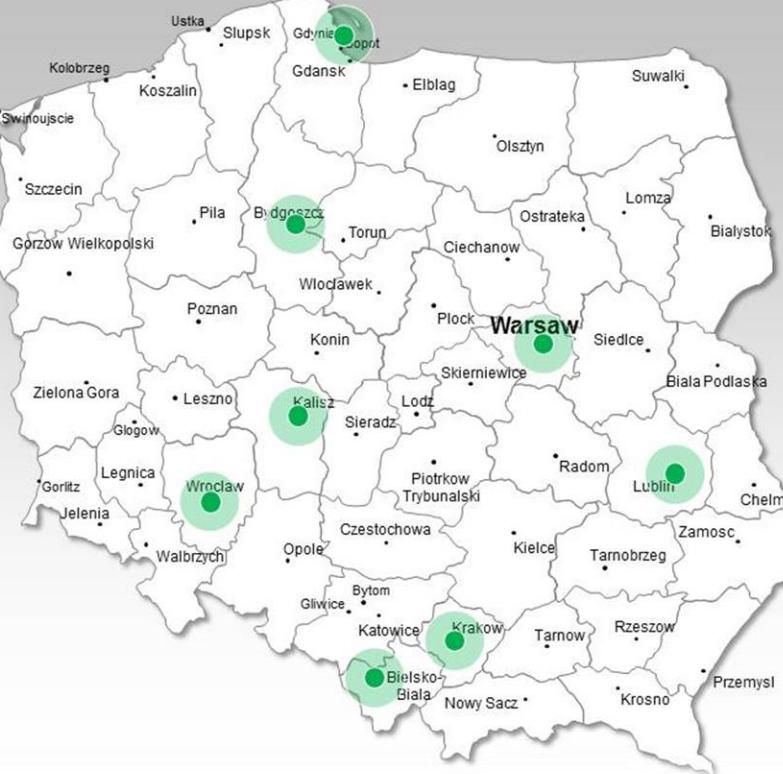

Municipal Climate Change Adaptation Plans

GRAD project - green roof development strategies for 8 Polish cities (2018 – 2020)

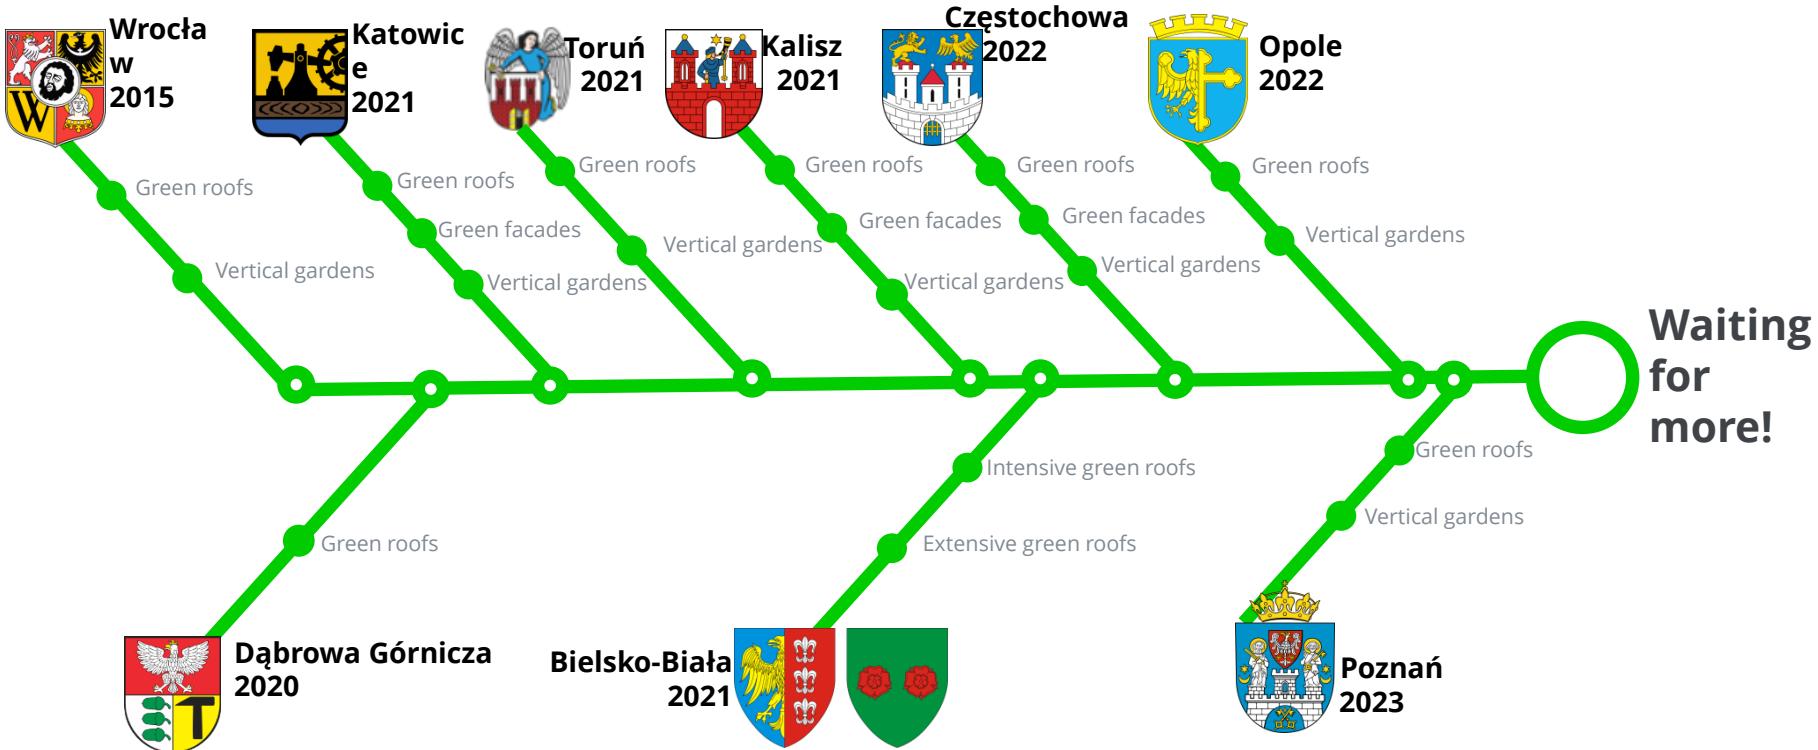

The Association of Municipalities Polish Network „Energie Cités” – project lider

City of Hamburg - project partner & good example

Activities of local governments to motivate construction of green roofs

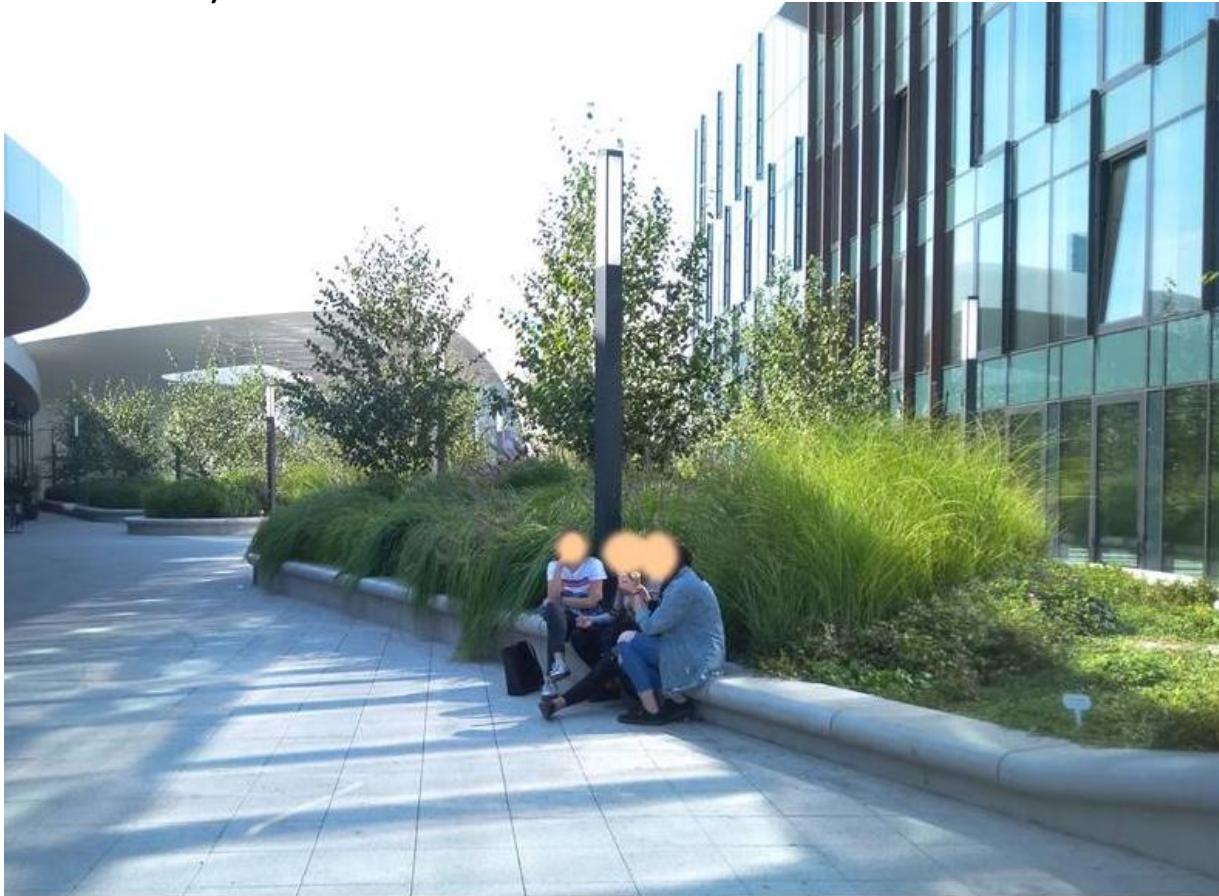

Wroclaw: ZŁAP DESZCZ (CATCH THE RAIN)

2019 – frst edition

2021 – best practices catalog

2019 – green roofs included

Green roof on Wroclavia shopping center, Wrocław

Gdansk: rainwater retention on development sites

„Gdańskie wody”
(Gdansk water)

Rainwater retention required!
(2019)

Standards developed by the city of Warsaw

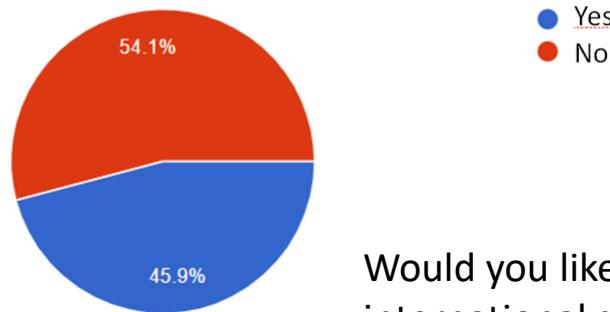

requirements & recommendations

- green roofs - minimum 20% of the roof area
 - biosolar roofs
-
- minimum 20 cm thickness of substrate

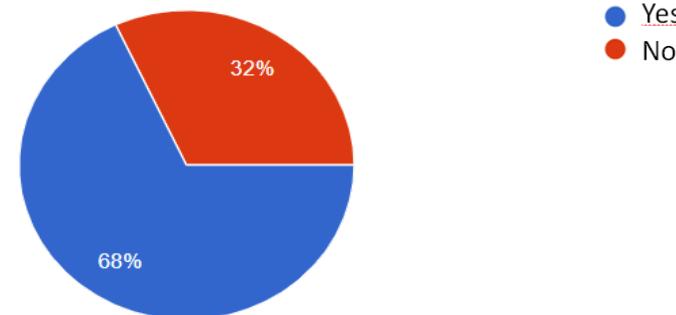

RESULTS OF A SURVEY CONDUCTED IN 2022 AMONG REPRESENTATIVES OF 244 POLISH CITIES

Are there activities in your city that support the development of green infrastructure?

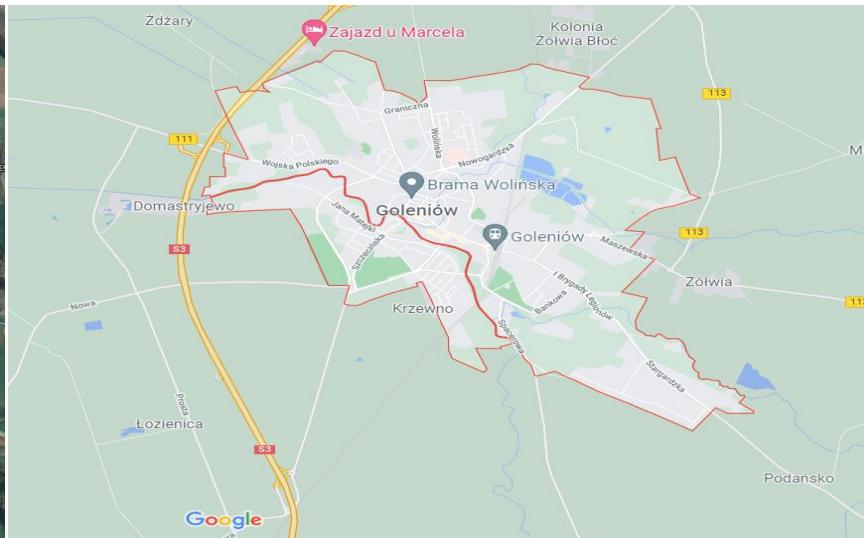

Would you like to receive information from the PSDZ on national and international green infrastructure events?

244 responses

Example city:

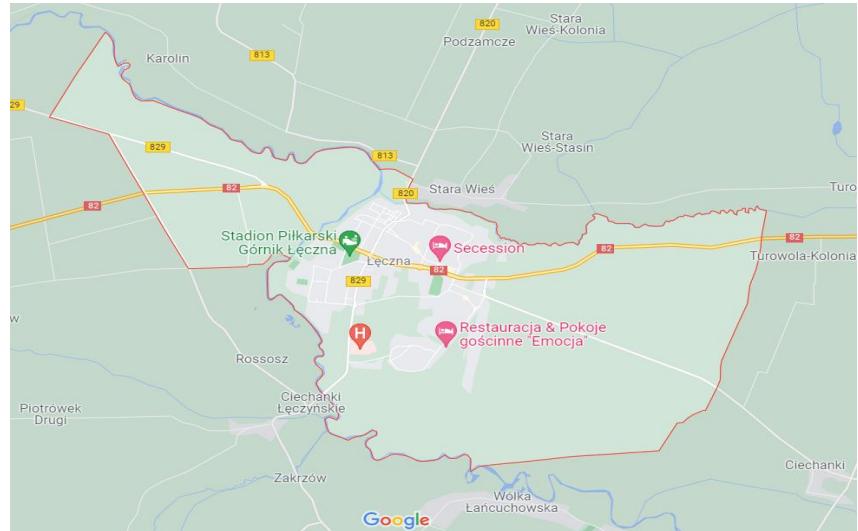

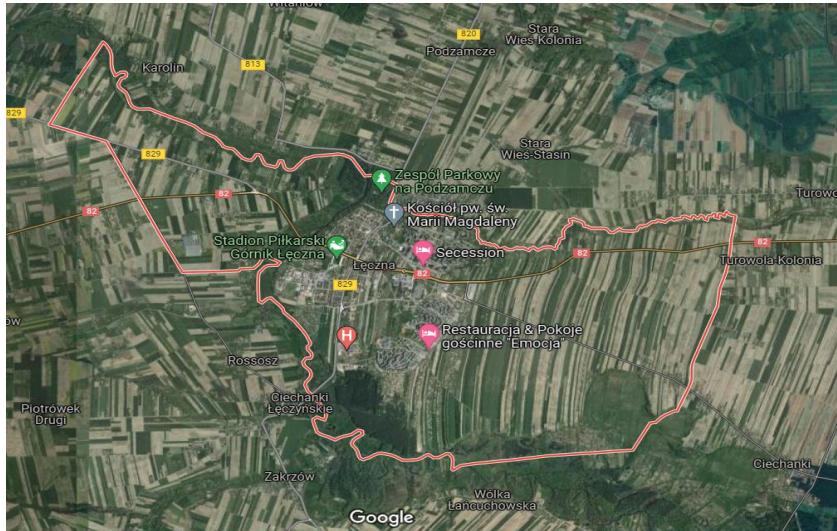

- lack of action to support the development of green infrastructure
- lack of interest in receiving information on this subject
